

Formula3 Regional Europe - Leclerc and Petecof in pole

In QP1 the Monegasque of the Prema Powerteam immediately sets the pace and seems to have launched, as already in Misano, towards the 3 pole positions, with an excellent 1.58'205, ahead of Juri Vips (KIC Motorsport) with 1.58'280, and his teammate Gianluca Petecof team (1.58'316). But it is the Brazilian who overturns the predictions and sets an incredible time and a new track record, with 1.

57'446. Behind him Leclerc, with 1.57'583 and Pierre-Louis Chovet, with 1.57'706. Best second time valid for pole position of race 3 is also won by the Brazilian.

Tomorrow race 1 will start at 11:05 and race 2 at 18:20, with live streaming broadcast on the championship Facebook page, on the acisport.it website, and live TV on motorsport.com and MS Motor TV (Sky channel 218).
