

Paul Ricard, FP2: Saucy again and Mini follows

28/05/2021 17:10

In the second 50 minutes practice session of the day, **Grégoire Saucy (ART Grand Prix)** confirms to be the fastest also with new tires, obtaining a very good lap time (1:57.937), being the only driver to go below 1:58.000. Behind him his teammate, **Gabriele Mini**, stopping the watch at 1:58.275, so not as close as he might have wanted, but still in a potential first row. Third is **Hadrien David**, the best of R-ace GP, with 1:58.341, in front of **Mikhael Belov (JD Motorsport)**, coming from F3, already quite confident with the car (1:58.459).

Isack Hadjar, after his great performance in Monaco and having set the best lap time (1:57.591) in the preseason tests on the French circuit, does not do better than 1:58.505, but still, he is fifth. Evidently, compared to the preseason tests, the track was today definitely slower.
